Advance Excel Assignment 18

1. What are comments and what is the importance if commenting in any

   code?

Ans: - A comment is text in a program's code, script, or another file that is not meant to be seen by the user running the program. However, is seen when viewing the source code. Comments help make code easier to understand by explaining what is happening and help prevent portions of a program from executing

2. What is Call Statement and when do you use this statement?

Ans:- The CALL statement transfers control from one object program to another within the run unit. The program containing the CALL statement is the calling program; the program identified in the CALL statement is the called subprogram

3. How do you compile a code in VBA? What are some of the problem that

   you might face when you don't compile a code?

 Ans:- You can compile your VBA code by clicking Debug Menu → Compile VBA Project. A compile error for a missing "End if" part of an IF statement. Every individual line in the code is correct, but together, they don't represent a complete IF statement

4. What are hot keys in VBA? How can you create your own hot keys?

 Ans:- Excel VBA assign keyboard shortcut to Macro.

   Begin keyboard shortcuts with CTRL or a function key. Press the TAB key repeatedly until the cursor is in the Press new shortcut key box. Press the combination of keys that you want to assign.

5. Create a macro and shortcut key to find the square root of the following

    numbers 665, 89, 72, 86, 48, 32, 569, 7521

   Ans:-
